

GEAPUR SD

Chemical Nature:	polyurethane in aqueous basis
Active Substance:	approx. 20%
pH:	approx. 8,0
Ionic Charge:	anionic
Film Hardness:	medium soft
Film Transparency	opalescent
Aspect:	white liquid
Utilization:	matt top coats

PROPERTIES

GEAPUR SD is a unique polyurethane for matt top coats. Due to its composition without silica, it has an excellent silky and rubber hand feeling. GEAPUR SD has a special property of not presenting “polishing” and brightness with friction, always remaining with the same matt intensity.

GEAPUR SD provides excellent abrasion and flex resistance, whether dry or wet. To enhance its physical-mechanical properties a usage of a cross-linker like GEAFIX 7 is indicated.

GEAPUR SD is recommended to be applied by spray and for roller-coater usage it is indicated to use along with other polyurethane of GEAPUR range. GEAPUR SD is indicated for shoe upper leathers, furniture upholstery and hand bag leathers.
