<b>Active Substance:</b>	approx. 50%
<b>pH:</b>	approx. 6,0
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	brown liquid
<b>Utilization:</b>	all kind of articles

### **PROPERTIES**

---

GEOFAT SE2 is a sulfated fatliquor with good penetration, providing excellent lubrication of the leather fibers. It produces leathers with medium softness, with a pleasant touch and without compromising the grain tightness. It has good light fastness and can be used in natural and white leathers.
