

## **GEATOR TA**

<b>Chemical Nature:</b>	acrylic emulsion
<b>Active Substance:</b>	approx. 30%
<b>pH:</b>	approx. 3,0
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	white liquid
<b>Utilization:</b>	thickener

### **PROPERTIES**

---

GEATOR TA is an acrylic emulsion used as thickener agent for dyestuff or acrylic top coats, which thickens in alkaline pH. It is recommended to dilute the product 1:1 with water under continuous stirring.
