

GEOFAT OPC 40

Chemical Nature:	combination of natural and synthetic oils
Active Substance:	approx. 42%
pH:	approx. 7,5
Ionic Charge:	non ionic
Aspect:	chestnut liquid
Utilization:	flesh side application

PROPERTIES

GEOFAT OPC 40 is a balanced composition of synthetic and natural components, with softening and hygroscopic properties, providing humidity and a good softness increase to the leathers.

Due to its natural composition, GEOFAT OPC 40 provides significant increase in the tensile and tearing strength properties, lubricating and hydrating the leather fibers and not interfering on other characteristics of crust or finished leathers.

GEOFAT OPC 40 can be applied by spray gun, by roller coater or by curtain machines, being indicated to dilute the product 1:1 with water.
