

## **GEAPUR DNT**

<b>Chemical Nature:</b>	polyurethane in aqueous basis
<b>Active Substance:</b>	approx. 22%
<b>pH:</b>	approx. 8,0
<b>Ionic Charge:</b>	anionic
<b>Film Hardness:</b>	medium
<b>Film Transparency</b>	dull
<b>Aspect:</b>	Opalescent white liquid
<b>Utilization:</b>	matt top coats

### **PROPERTIES**

---

GEAPUR DNT is a polyurethane that provides a matt film with a slightly rubber hand feeling. Top coats with GEAPUR DNT are very flexible and abrasion resistant, whether dry or wet. To enhance its physical-mechanical properties the usage of a cross-linker like GEAFIX 7 is indicated.

In combination with the other polyurethanes of GEAPUR range, it can be applied by spray or roller-coater system with excellent leveling. GEAPUR RB has a special property of not presenting "polishing" and brightness with friction, always remaining with the same matt intensity.
