

GEAPUR MTT

Chemical Nature:	water-based aliphatic polyurethane
Active Substance:	approx. 17%
pH:	approx. 8,5
Ionic Charge:	anionic
Film Hardness:	medium
Film Transparency:	opaque
Aspect:	opalescent, white liquid
Utilization:	opaque finishing final top coat

PROPERTIES

GEAPUR MTT is a matt polyurethane with excellent flexibility and resistance to dry and wet abrasion to be applied to final top coats. In order to increase the physical and mechanical resistances of the finishes, apply aziridine-based catalysts (GEAFIX 7). GEAPUR MTT may be applied with roller coating machines or spray-gun systems. In both cases, it provides excellent spreading and final top coat levelling.
