

## **GEALUX FINISH CV**

<b>Chemical Nature:</b>	combination of waxes and oils for hot application
<b>Active Substance:</b>	approx. 94%
<b>Melting Point:</b>	approx. 60°C
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	white solid
<b>Utilization:</b>	articles with pull-up effect

### **PROPERTIES**

---

GEALUX FINISH CV is a combination of wax and oil developed to provide pull-up effect on leathers without changing its softness. Its application is recommended at 85°C in roller coater machines. After its application, GEALUX FINISH CV can be ironed or felt polished to obtain smoothness and dark look.
