

## **GEALUX C 98**

<b>Chemical Nature:</b>	combination of natural and synthetic waxes with low specific weight matting agents
<b>Active Substance:</b>	approx. 18%
<b>pH:</b>	approx. 9,0
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	slightly yellowish, viscous liquid
<b>Utilization:</b>	coverage paint

### **PROPERTIES**

---

GEALUX C 98 is a highly matting compound of special waxes and extra fine silica. These features result in optimal tack reduction and coverage levelling as well as improving leather grading. GEALUX C 98 may be used in all kinds of finishes including as the only auxiliary in coverage paints. Another characteristic of GEALUX C 98 is that, due to the nature of its components, it keeps a natural feel without drying up the finish.
