

GEAPUR BRILHO

Chemical Nature:	aliphatic polyurethane in aqueous basis
Active Substance:	approx. 16%
pH:	approx. 9,5
Ionic Charge:	anionic
Film Hardness:	hard
Film Transparency	transparent
Aspect:	transparent liquid
Utilization:	top coats

PROPERTIES

GEAPUR BRILHO is a polyurethane that provides high shiny and transparency to the leathers. Its usage is indicated for top coats, with excellent flexibility and abrasion fastness, whether it is dry or wet. To enhance its physical-mechanic properties, the usage of a cross-linker like GEAFIX 7 is required. GEAPUR BRILHO is preferably applied by spray and the shiny maintenance is an important characteristic of this product.
