

## **GEABIND 682**

<b>Chemical Nature:</b>	hard casein
<b>Active Substance:</b>	approx. 11%
<b>pH:</b>	approx. 9,0
<b>Ionic Charge:</b>	anionic
<b>Aspect:</b>	translucent liquid
<b>Utilization:</b>	top coats for natural articles

### **PROPERTIES**

---

GEABIND 682 is made from special caseins without plasticizers and form a hard, glossy and very transparent film. Due to its non thermoplastic properties, GEABIND 682 can be glazed and polished with stone or felt. It is also indicated to combine GEABIND 682 with softer caseins of the GEABIND range in order to obtain more flexible films.
