

GEOFAT S

Chemical Nature:	combination of sulpho-condensed natural oils
Active Substance:	approx. 50%
pH:	approx. 7,0
Ionic Charge:	anionic
Aspect:	light brown liquid
Utilization:	Universal fatliquoring for all types of leather

PROPERTIES

GEOFAT S is a sulpho-condensed natural oil recommended in the chromium retanning process. Because it is a universal oil, GEOFAT S may be used in various articles for footwear and leathers. Its composition provides firm grain, softness and full leathers. In order to increase the desired characteristics in each article, it is recommended to combine it with the other products in the GEOFAT oil range. It provides excellent distribution and penetration power. Applied to suede-like leather it provides an excellent surface feel and much higher writing effect.
