

GEOFAT SPX

Chemical Nature:	combination of natural and synthetic oils
Active Substance:	approx. 53%
pH:	approx. 7,0
Ionic Charge:	anionic
Aspect:	liquid amber to chestnut
Utilization:	fatliquoring oil for all kinds of chrome, vegetable tanned leathers or bio-leather systems

PROPERTIES

GEOFAT SPX is a synthetic/natural oil that provides softness, grain silkiness, and filling to leathers. The marine natural component existing in GEOFAT SPX helps in the increase of the tearing resistance. Due to its composition, it possesses high lubrication power of the fibers, giving the leather agreeable and natural touch characteristics. GEOFAT SPX can be used in the fatliquoring of various articles: box, semi-chrome, nubuck, and nappas in general. It can be used as only fatliquoring or combined with other oils of the GEOFAT line.
